British Take Possession of Kopje Near Spearman's Camp.

Spearman's Camp, Tuesday, Jan. 23 9:30 p. m.—The British field artillery 9:30 p. m.—The British field artillery and Howitzers shelled the enemy posted on the crest of the ridge this morning. The infantry, under excellent cover, kept up an effective rifle fire. The Boers resigned a kopje, of which the British infantry took possession. When retiring, the enemy sheltered themselves behind a stone wall on the slope of the kopje, which they held for hours. This afternoon they ran across the ravine. The British artillery poured shrspnel and lyddite into them and the infantry took the stone wall. The British casualty list was small. British casualty list was small.

THEY LOOK TO WARREN.

British Are Beginning to Lose All Confidence in Buller.

New York, Jan. 24.-A dispatch to the Tribune from London says: An English South African, almost unrivaled in experience and knowledge, says that his hopes are centered in General Warren, rather than in General Buller, He cays that Warren has long been known among the Dutch as "the general." For example, a friend accompanying Cecil Rhodes through the Barkley West disrict during his election tour in August, 1898, heard constant references to "the general," and asked who he was. "Sir Charles Warren, of course," was the

Before Mr. Echodes had foreseen and carried out the great scheme of expansion northward, General Warren had been preaching it to deaf ears. His expedition through Bechuanaland in 1885, when the Bear ware dispution. when the Boers were disputing over war northward, was bloodless. This was due to the dread which his name inspired among the Transvaal Dutch. He has had greater experience in South Africa than any other British general, and his column is the only one that has attacked the enemy in the Boer way among the boulders and kopies, and taken advantage of the cover offered

Portland, Ore., Jan. 24.-The 3-year-old son of W. B. Evans, an engineer on the St. John's motor line, about noon today climbed into an engine, which was standing in the yard, and opened the throttle. In a short space of time the engine was going at a rate of twenty miles per hour.

The father of the boy started in pursuit as soon as he heard the engine moving off, but the speed was too great for him to overhaul it. He telephoned to the stations ahead but when Portsmouth, the next station, was reached, no one dared make the attempt to board it as it thundered past When within 300 yards of the end of the line the steam had died down and
